

# BIG THINK

## Collective Synthesis

### So What?

Students

#### Consider Content

What I know  
What we know  
Why is this important?

#### Knowledge Building

- Understandings
- Transformations
- Creations and Innovations

### So What?

Students

#### Reflect On Process

How I learn  
How we learn  
How I have improved as a learner  
How we have improved as learners  
Why is this important?

#### Learning to Learn

- Skills
- Dispositions in action
- Responsibilities
- Self-assessment strategies

### So What?

Learning Leadership Team

#### Reflect on Learning

What they learned  
How they learned it  
What we and they learned about how they learn  
Why is this important?

#### Teaching to Learn

- Content
- Process
- Teaching and Learning Strategies
- Learning Environment

## What Next?

#### Develop from So What Experiences

- What new questions do I/we have?
- What else do we want to explore?
- How can we use what we know to do better next time?
- What action can I/we take?
- How can I/we make use of this new knowledge in the real world?
